3 New forest shapefile

Under the Climate Change (Forestry Sector) Regulations 2008 this application is required to be accompanied by certain geospatial mapping information (commonly referred to as a shapefile). The shapefile content and format must meet MPI's *Geospatial Mapping Information Standard* available at www.mpi.govt.nz/news-resources/publications.aspx. You should also read *A Guide to Mapping Forest Land for forestry in the Emissions Trading Scheme* available at the same website.

Please tick you have complied with the following statements:

- I have included my forest shapefile **with polygons of my removed forest land** on a CD or DVD, which conforms to MPI's Mapping Standard
- The forest shapefile does not ADD any land to the registered Post-1989 forest land that MPI has recorded through your registration and subsequent CAA transactions. I.e. removed forest land is constrained by the boundaries of polygons MPI has recorded through your initial registration and subsequent CAA transactions

- I understand that the Participant has an obligation to file a Mandatory Emissions Return (Unit Surrender) within 20 business days.
- I understand that the Participant has an obligation to surrender NZUs in respect of the removed land.
- I understand that removing land from CAA(s) may have implications for the carbon stock tables required to be used in the remainder of the current mandatory emissions return period, and for my status as an Field Measurement Approach participant in the next mandatory emissions return period.
- It is very important that you have completed this application or notification accurately and truthfully. If you provide any altered, false, incomplete or misleading information in or with this application you commit an offence under the Climate Change Response Act 2002 and if convicted you may be liable to imprisonment or a fine up to \$50,000.
- If information supplied within your application or notification is required by the Inventory Agency or Registrar of the New Zealand Emissions Unit Register to carry out their functions under the Climate Change Response Act 2002, then the Chief Executive responsible for the operation of the Emissions Trading Scheme must supply that information to them.
